Career Opportunities: Forensic Chemist (9083)

Req Id 9083 - Posted 06/03/2014 - United States - Georgia - Secret - Forensics

A-T Solutions delivers a full continuum of innovative solutions that meet critical security challenges in technology, training, maritime operations, intelligence and mission support. A-T Solutions has been honored to receive Inc. Hire Power Award that ranks us among top 50 in U.S.A. for Job Creation (2012), ranked #42 on Washington's Business Journal's list of 50 Fastest Growing Companies (2012), ranked #33 on Washington Business Journal's Government Technology Contractor's list (2012), and placed on the Inc. Magazine list of 500/5000 Fastest Growing Private Companies for six consecutive years.

A-T Solutions is currently seeking a Forensic Chemist based in Ft. Gillem, GA with possible opportunities for overseas travel. This position is contingent upon future needs of this awarded contract. Clearance: SECRET

Responsibilities include but are not limited to:
- Perform chemical analysis and identification of explosives and drug samples
- Differentiate trace explosive signatures from contamination and background
- Provide information to assist in profiling and signature analysis
- Maintain and document chain of custody of items
- Perform explosive analysis
- Utilize ion analysis, gas chromatography / mass spectrometry, Fourier Transform Infra-Red spectrometry, and liquid chromatography/mass spectrometer
- Produce detailed notes and reports
- Perform technical and administrative reviews of other analysts’ casework
- Instrument maintenance
- Interact and collaborate with other group/team members and other forensic staff to ensure a high quality and accurate product

Requirements:
- Degree from an accredited college or university in physical or life sciences
- Four (4) years of experience working in a laboratory performing drug and/or explosive chemical testing
- Proficiency working with chemistry analytical methodologies Gas Chromatography (GC) and/or Fourier Transform Infrared (FTIR) Spectroscopy
- Proficient in Microsoft Office Suites, excel spreadsheets
- Skilled communicators who can clearly articulate/communicate via email, telephone calls and video teleconferencing
- Experience working with an OIF/OEF Laboratory, TEDAC facility, or other NGIC, DoD or ATF Lab; interagency or state/local law enforcement forensics labs preferred

Other Qualifications:
Must be able to successfully pass all medical requirements for deployment, if overseas travel required
Must be able to successfully pass a skills assessment
U.S. citizenship
Valid US Passport
Able to obtain and maintain a DoD SECRET security clearance
