Presentation

Justin Poklis, Alphonse Poklis, Carl Wolf, Mary Mainland, Laura Hair, Kelly Devers, Leszek Chrostowski, Elise Arbefeville, Michele Merves, and Julia Pearson. Postmortem Concentrations of Morphine, Fentanyl, Norfentanyl, Acetyl Fentanyl and Noracetyl Fentanyl in Recent Heroin-Related Fatalities. Presentation. Society of Forensic Toxicologists Meeting, Atlanta, GA. October 2015.

Solomon AD, Hytinen ME, McClain AM, Miller MT, Dawson Cruz T. Improved Methods for Retrieval and Extraction of DNA from Tape-Lifted, Paper-Backed Stored Archived Latent Fingerprints. 26th International Symposium on Human Identification, Promega Corporation, Dallas, TX, October 2015

Gibson AK, Cox JO, Jackson K, Landers JP, Dawson Cruz T. A microchip module for differential extraction of sexual assault samples and improved IR-mediated STR amplification for a rotation-driven Microdevice. 26th International Symposium on Human Identification, Promega Corporation, Dallas, TX, October 2015

Durham, L.S. What Do You Meme I Have An Advisor? Learning to ‘Speak Social Media’ to Increase Communication with Students. Concurrent Session presented at the Annual Meeting of the National Academic Advising Association, (NACADA), Las Vegas, NV, October, 2015

Durham, L.S.. What Do You Meme I Have An Adviser? Speaking the Language of Social Media to Increase Student Engagement. Concurrent Session Presented at the Region 2 Meeting of the National Academic Advising Association (NACADA), Hyattsville, MD, March, 2016

Stokes, N. Cell Separation of Multiple Contributor Samples to Facilitate DNA Mixture Analysis. Presentation. Mid Atlantic Association of Forensic Science Meeting, Richmond, VA. May 2016.

Hytinen, M., Solomon, A., Miller M.T., Dawson Cruz, T. Methods for Obtaining STR-Quality Touch DNA from a Non-Porous Surface after Latent Print Collection. VCU Poster Symposium For Undergraduate Research and Creativity, April 2016.
Publications

Connon CC, LeFebvre AK, Benjamin RC. Validation of Alternative Capillary Electrophoresis Detection of STRs using POP-6 Polymer and a 22cm Array on a 3130xl Genetic Analyzer. Forensic Science International: Genetics 2016; 22C: 113-127.

Simmons, T, Goodburn, B and Singhrao, S 2016 Decision Tree Analysis as a Supplementary Tool to Enhance Histomorphological Differentiation when Distinguishing Human from Non-human Cranial Bone in both Burnt and Unburnt States: A feasibility study. Medicine, Science and the Law 2016, Vol. 56(1) 36–45

SJ Seashols-Williams, W Budd, K Sharma, R. Daniel, E. Dragescou, and ZE Zehner. miR-9 acts as an OncomiR in prostate cancer through multiple pathways that drive tumour progression and metastasis. Accepted for publication to PLoSONE May 2016.
