Important Disclaimer

By using the Coding 101 curriculum, you acknowledge that you have read and accepted this disclaimer!

Proper coding is the responsibility of the submitting provider.

Coding rules are complex, and Medicare policy changes frequently. Coding 101 was prepared as an educational introduction. Although every reasonable effort has been made to ensure the accuracy of the information in Coding 101 at the time of its submission for peer review, coding rules may change and the ultimate responsibility for the correct submission of claims and response to any remittance advice lies with the provider of services. Consult with a coding specialist for detailed and current information relevant to your coding needs. Use the coding resources available at your clinical site, and work with your billing compliance team to conform to coding regulations. Dr. Chick and The University of Michigan make no representation, warranty, or guarantee that this information is error-free and will bear no responsibility or liability for the results or consequences of the use of this information. Coding 101 contains only a general summary of certain aspects of coding regulations. Coding 101 is not a legal document and is not intended to grant rights or impose obligations. Official Medicare provisions are contained in the relevant laws, regulations, and rulings.
