We Need Your Help!

If you are a patient with a movement disorder or a person who cares for an individual with a movement disorder, we would like to ask you to fill out an online questionnaire about your current use of health care services as well as barriers to care that prevent you or the person you care for from receiving care for their movement disorder. Paper questionnaires are also available.

We are interested in gathering this information so that we can better understand the needs of individuals with movement disorders and their caregivers as well as how to reach those who may not be accessing care or feel as though they cannot access the services that they need.

If you are interested in participating,

please contact us at the VCU Parkinson’s and Movement Disorders Center (PMDC)

Dr. Sarah Lageman, Ph.D., ABPP/CN (Primary Investigator)
