More About American Sign Language Classes
Currently, the Virginia Department for the Deaf and Hard of Hearing (VDDHH) does not conduct any American Sign Language Classes at the agency. However, VDDHH attempts to stay abreast of any classes offered throughout Virginia.
In some areas there may also be ASL classes held in various localities, such as churches with deaf ministry, Parks & Recreation programs and Adult Education classes with local school systems.
Additional information may be found on both the VDDHH Facebook page and on the VDDHH YouTube Channel. Go to www.vddhh.org for links.

About this Publication
This brochure provides information on American Sign Language (ASL) articles, videos, and some ASL courses both live and online. Virginia has a wealth of sign language resources for families - it is just a matter of finding ASL classes in your area.
This brochure gives some of the available ASL resources, but the list is not inclusive of all ASL classes in Virginia. Also, not every sign language class teaches ASL - please check the class description and the credentials of the instructor (Deaf, ASL, native user, etc.). The American Sign Language Resources in Virginia brochure can be found at: www.centerforfamilyinvolvement.vcu.edu/family-to-family-network/supporting-families-of-children-who-are-deaf-hard-of-hearing/.
If you need any additional information, contact the Center for Family Involvement at (877) 567-1122. We look forward to your call!

American Sign Language Resources in Virginia

www.centerforfamilyinvolvement.org

The CFI has provided this list for information only. It does not endorse any of these resources.
Resources

What Is American Sign Language?
American Sign Language (ASL) is a visual language. The shape, placement and movement of the hands convey information. ASL is used in the United States and Canada. For further details see the National Association of the Deaf website. nad.org/issues/american-sign-language/what-is-asl

History of American Sign Language

Parents & Families
When your child has been identified as deaf or as having a hearing loss, how do you make decisions that are right for your child and family? Get information from the American Society of Deaf Children at: deafchildren.org/knowledge-center/parents-and-families/

Parent Information Package
VL2’s Parent Information Package is a portal to a wide range of resources for parents, teachers, and health professionals. Read and watch interviews with parents, researchers, and scientists about creating language-rich environments. vl2parentspackage.org

Described & Captioned Media Program
It is never too early to expose your child to written words which captioning provides! The DCMP is funded by the U.S. Department of Education and provides a free loan media program (DVD, video streaming). It is a valuable resource for sign language learning. Families of children who are deaf are eligible for a free lending account with DCMP which works like Netflix. DVDs are sent via US mail and will have a postage paid sticker to return them. There is NO COST for the user. Many DCMP materials may be directly streamed to a computer. www.dcmp.org

Language in Motion
Family support and early intervention for babies who are deaf and hard of hearing: www.gallaudet.edu/clerc-center-sites/setting-language-in-motion.html

Best iPhone Apps for Learning Sign Language
